# YaraAmplix™

Enhancing your  
crops' natural  
potential in  
harmony with  
nature

## Responsive

Biostimulants are easily adaptable to crops needs throughout the crop cycle. They are part of a comprehensive range of crop nutrition solutions that include primary and secondary crop nutrients, micronutrients, agronomic advice and digital farm management tools.

## Robust

Biostimulants make crops more robust. They improve crop quality and contribute to more vigorous and healthy plants. At the same time, they improve crop yield and therefore keep the farmer's business profitable and sustainable.

## Resilient

Biostimulants make crops more resilient by enhancing plants' tolerance to abiotic stress, such as drought or extreme temperatures, helping to mitigate the negative impact of climate change.

**YaraAmplix™ contributing to growing a  
Nature-Positive Food Future**

### Abiotic Stress Tolerance

- Water stress
- Temperature stress
- Light stress
- Salinity
- Chemical stress
- Etc.

**Resilient, Robust, Recover**

### Nutrient use efficiency

- N fixation
- Nutrient solubilization (e.g. P, K)
- Nutrient availability
- Nutrient uptake
- Nutrient assimilation
- Etc.

**Restore, Robust, Recover Regain**

### Crop quality (Yield & Quality traits)

- Soil health
- Plant health
- Fruit quality
- Root growth
- Photosynthetic activity
- Seed germination
- Etc.

**Resilient, Restore, Robust, Recover Regain**

## Yara Amplix positioning in Oilseed Rape

Crop Response	At sowing	4-8 leaves	Onset of stem elongation	Before flowering	Flowering
Support crop establishment and improve nutrient use efficiency	YaraMila with PROCOTE OPTIMIZE				
Enhance crop establishment & winter hardiness		YaraAmplix OPTIMARIS 1-2 lt/ha (1 application)			
Improve plant growth & productivity & tolerance to abiotic stress			YaraAmplix FLOSTREL 1 lt/ha (2 applications)		
Enhance root development & nutrient uptake/availability	YaraAmplix OPTINUE 2 - 5 lt/ha				

Soil applied products
  Foliar applied products
  Fertilizer coating products

Read label before application of any YaraAmplix product

## YaraAmplix™ FLOSTREL™

Improves flowering and seed retention to enhance yield and quality

Precise balance of nutrients and bioactive compounds

Enhances flowering and seed retention

Improves crop quality and yield
